Florida

Seafood & Aquaculture Coloring & Activity Book

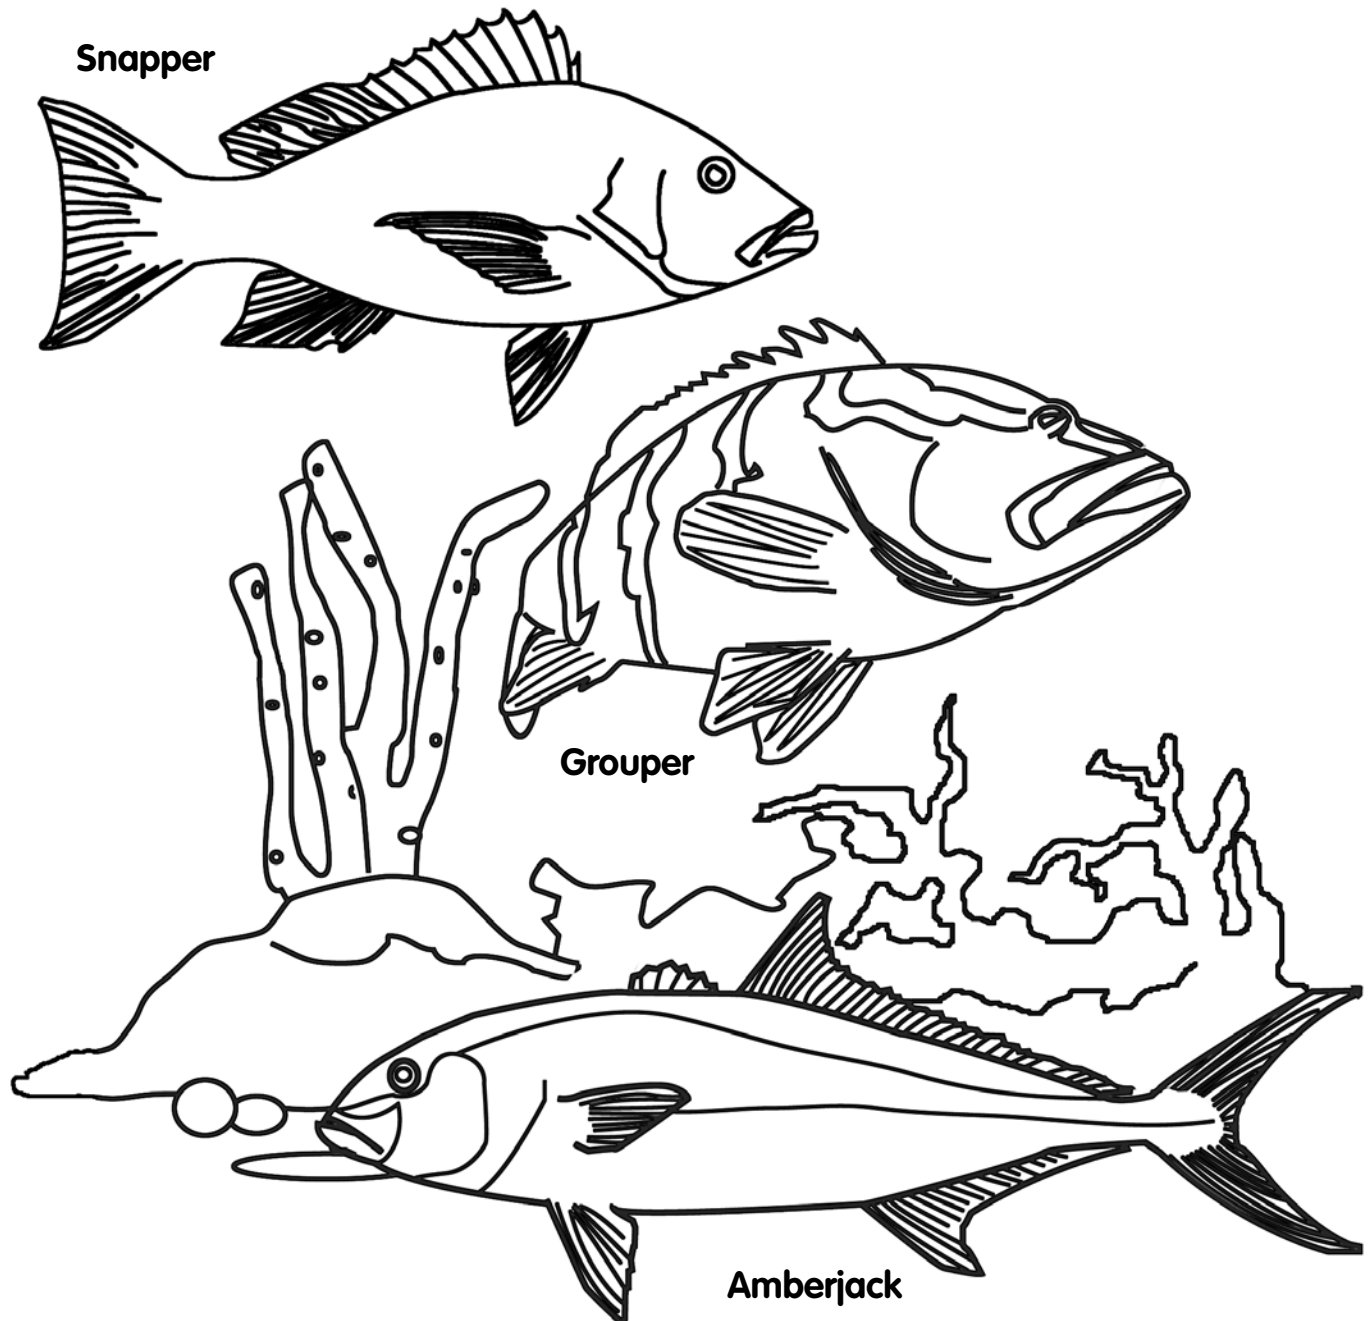

Seafood Industry

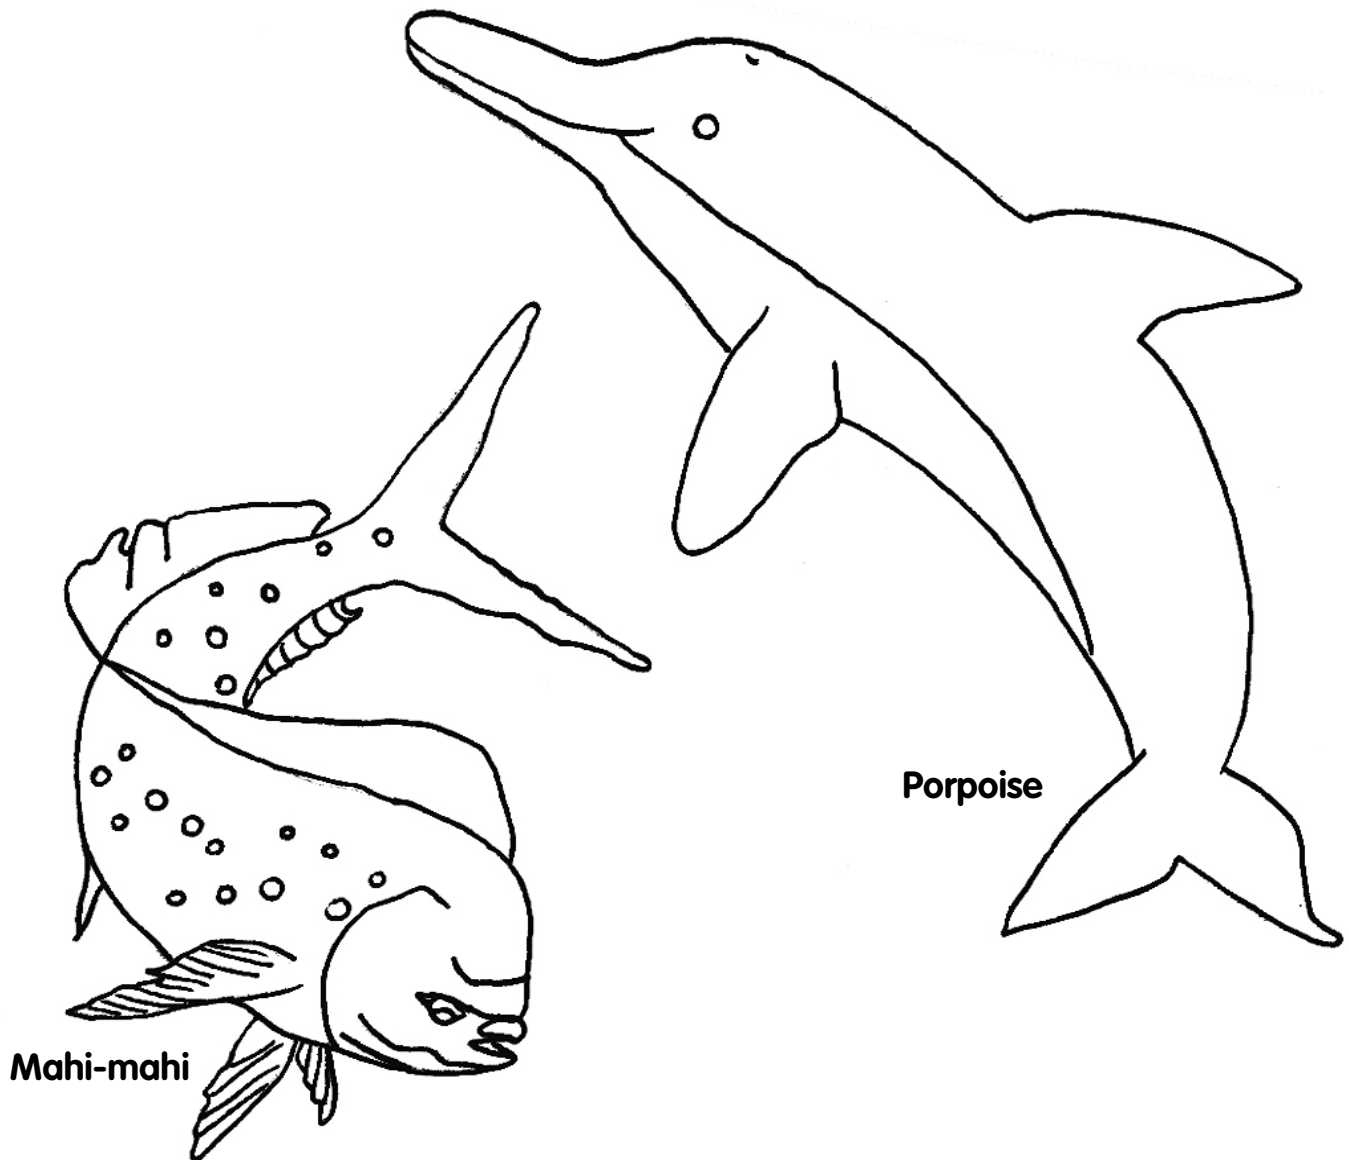

Florida has 1,197 miles of coastline. The Florida fishing industry is very valuable to the United States.

Reef Fish: Amberjack, Snapper, and Grouper

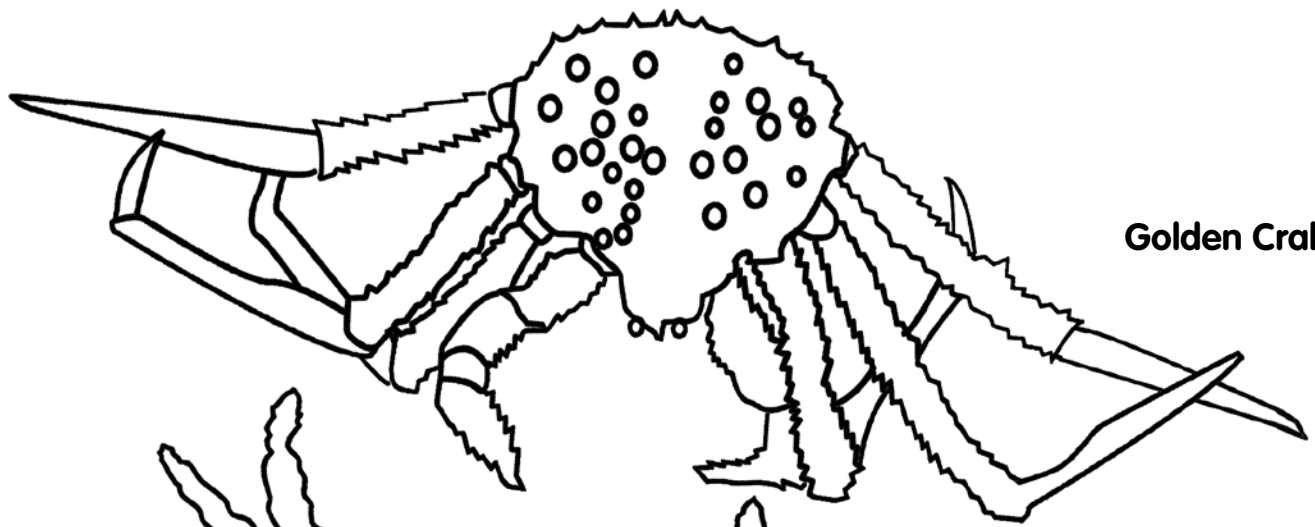

Reef fish are colorful fish. Amberjack, Snapper and Grouper are found around reefs.

Mahi-Mahi / Dolphins

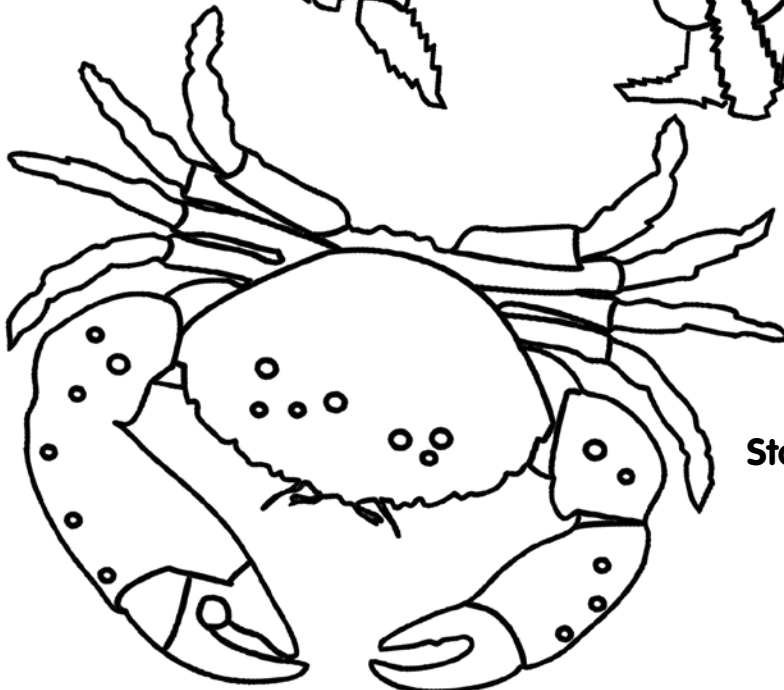

The Mahi-Mahi, also known as Dolphin, is not the same as a porpoise. The porpoise is a mammal. The Mahi-Mahi is a fish.

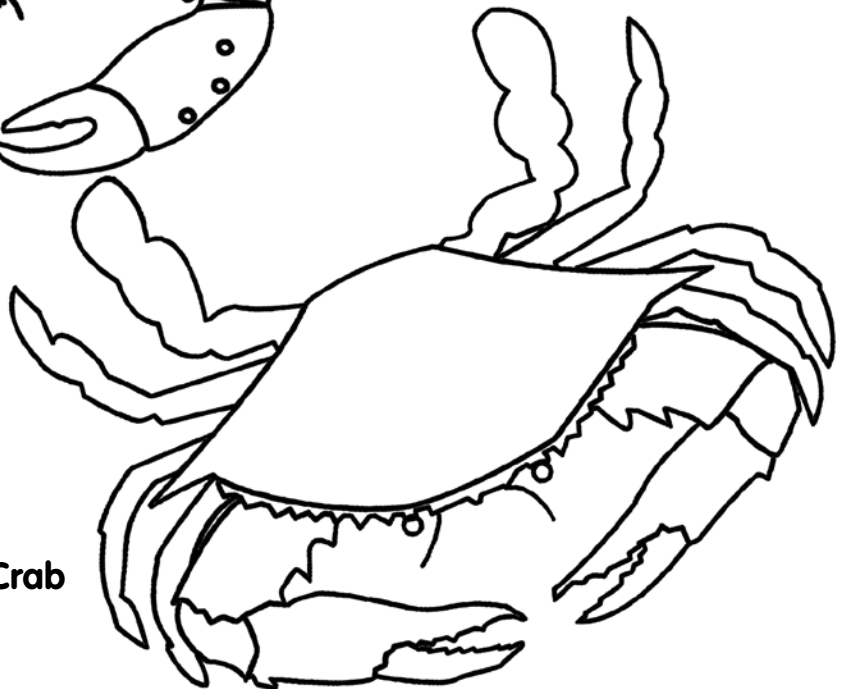

Crabs

Golden Crab

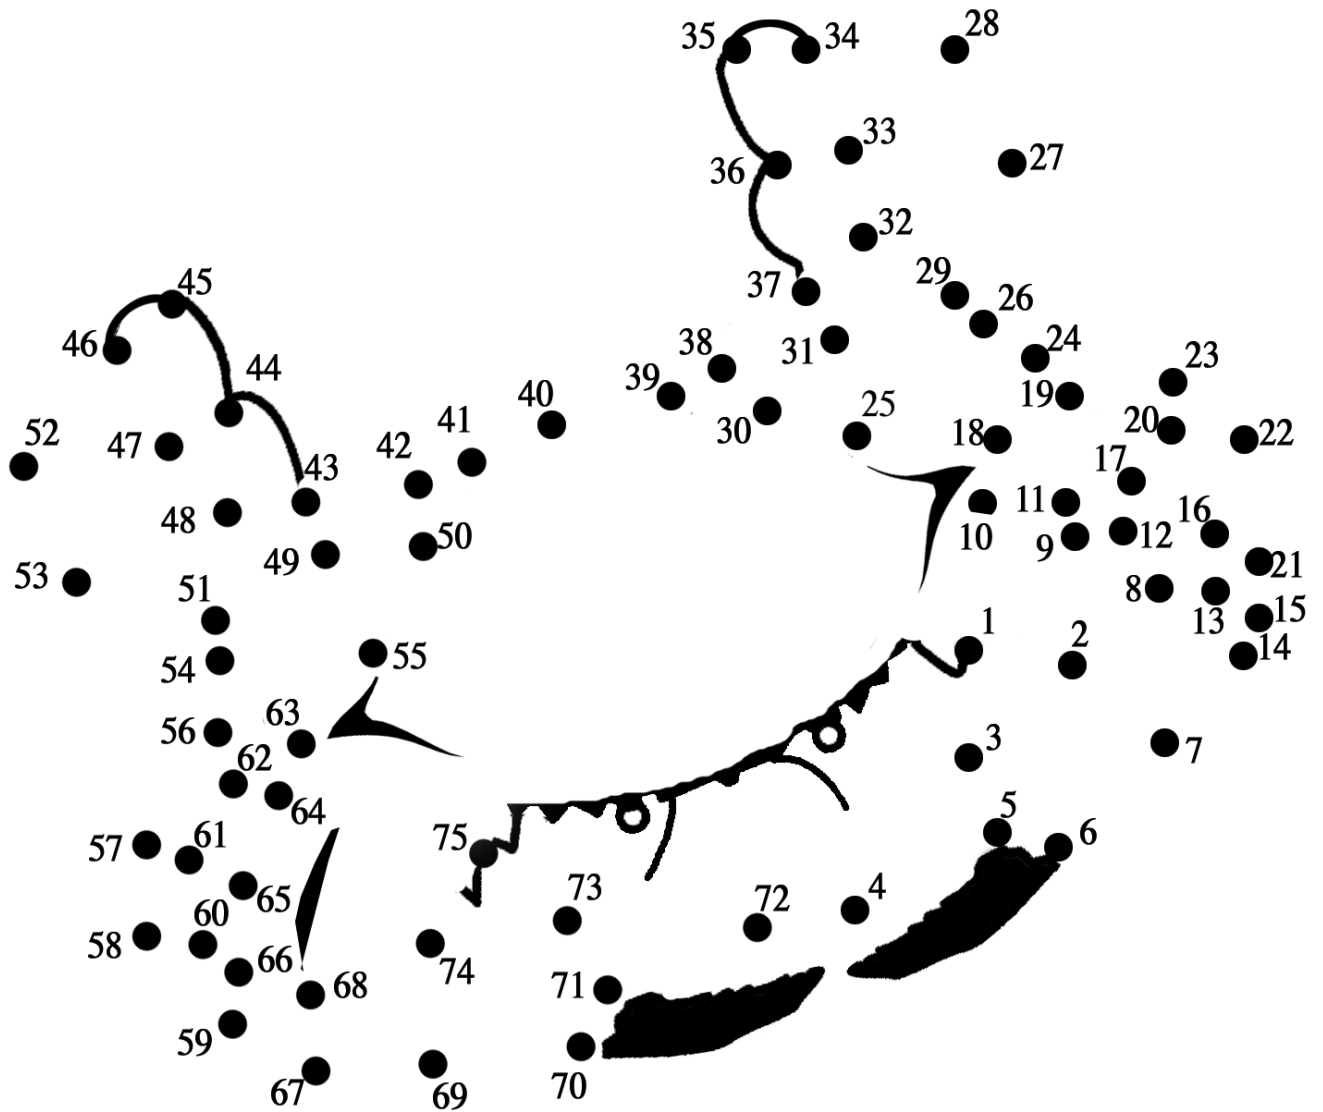

Stone Crab

Blue Crab

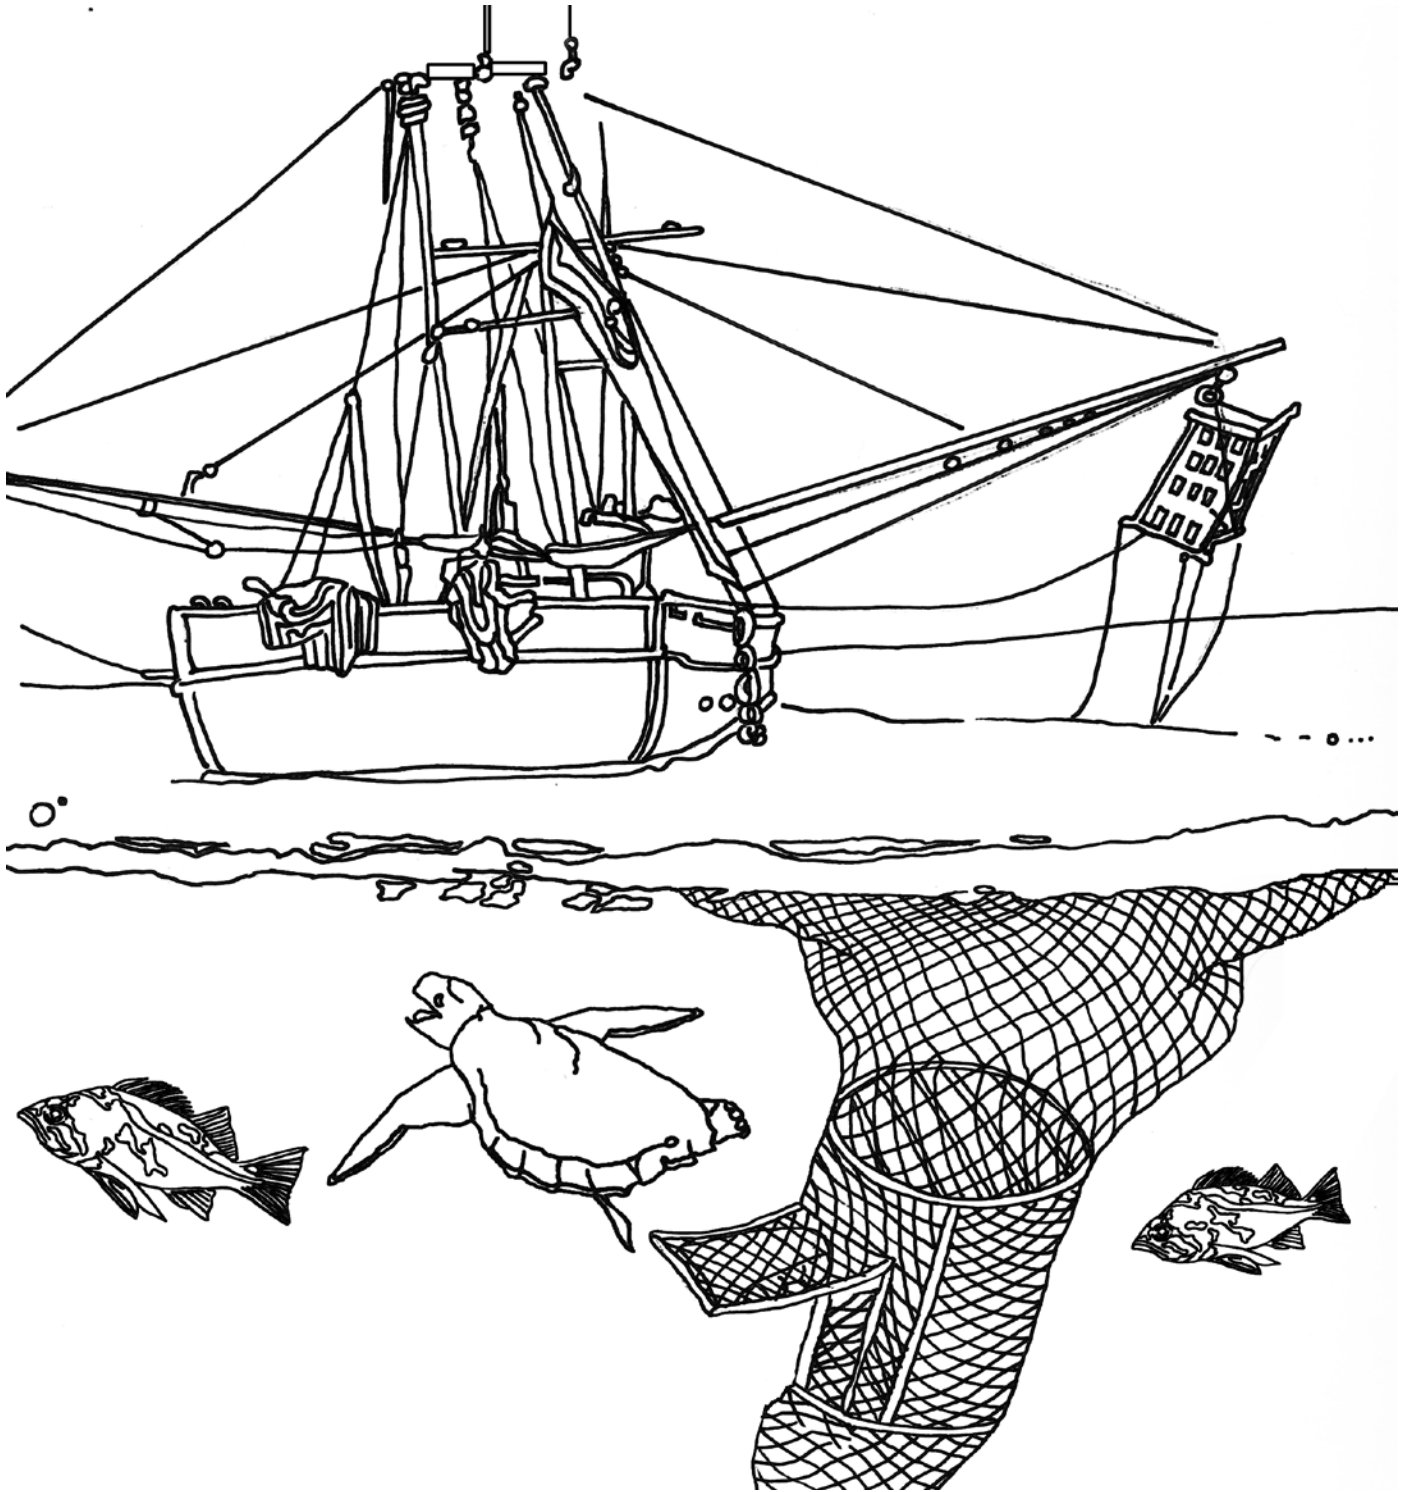

The Blue Crab, Golden Crab and Stone Crab have five pairs of legs. One of these pair is the claws. Crabs have a hard shell or “exoskeleton.”

Connect the Dots

Who am I?

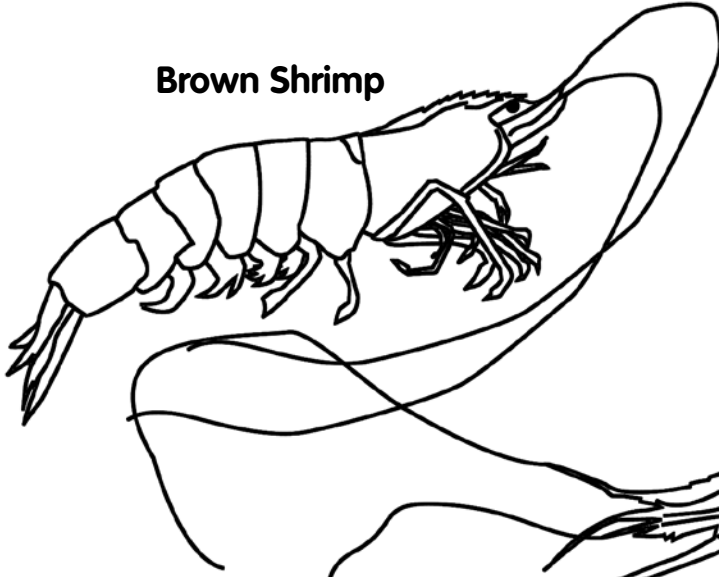

Shrimp

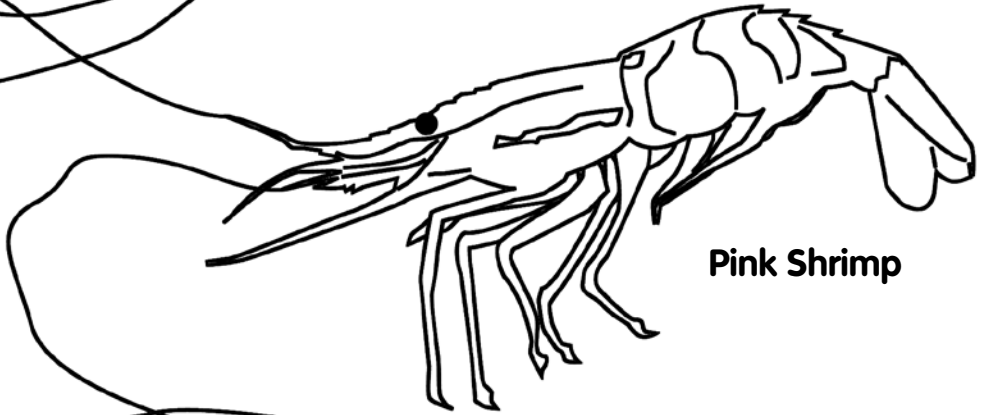

In Florida, shrimp are harvested with trawls, cone-shaped nets, towed along the bottom in waters near shore. The nets have doors to let turtles out.

Florida Shrimp

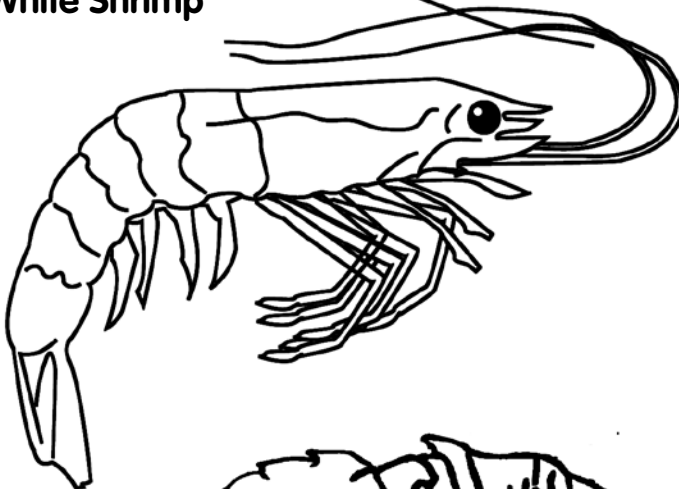

Brown Shrimp

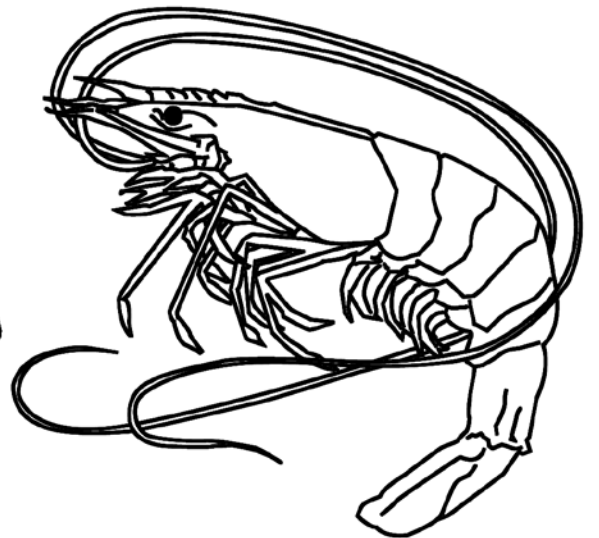

Pink Shrimp

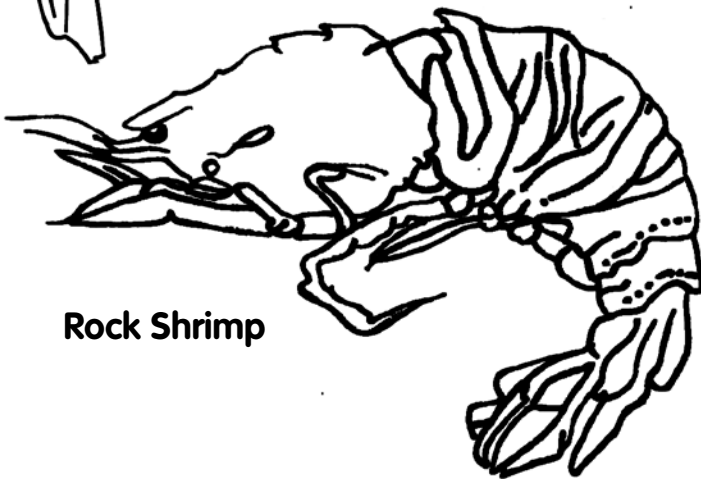

White Shrimp

Royal Red Shrimp

Rock Shrimp

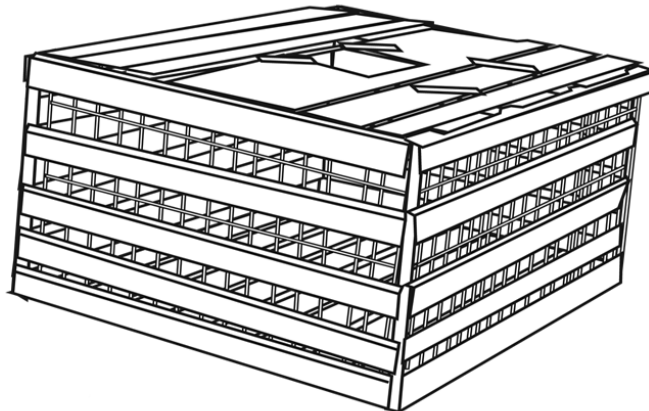

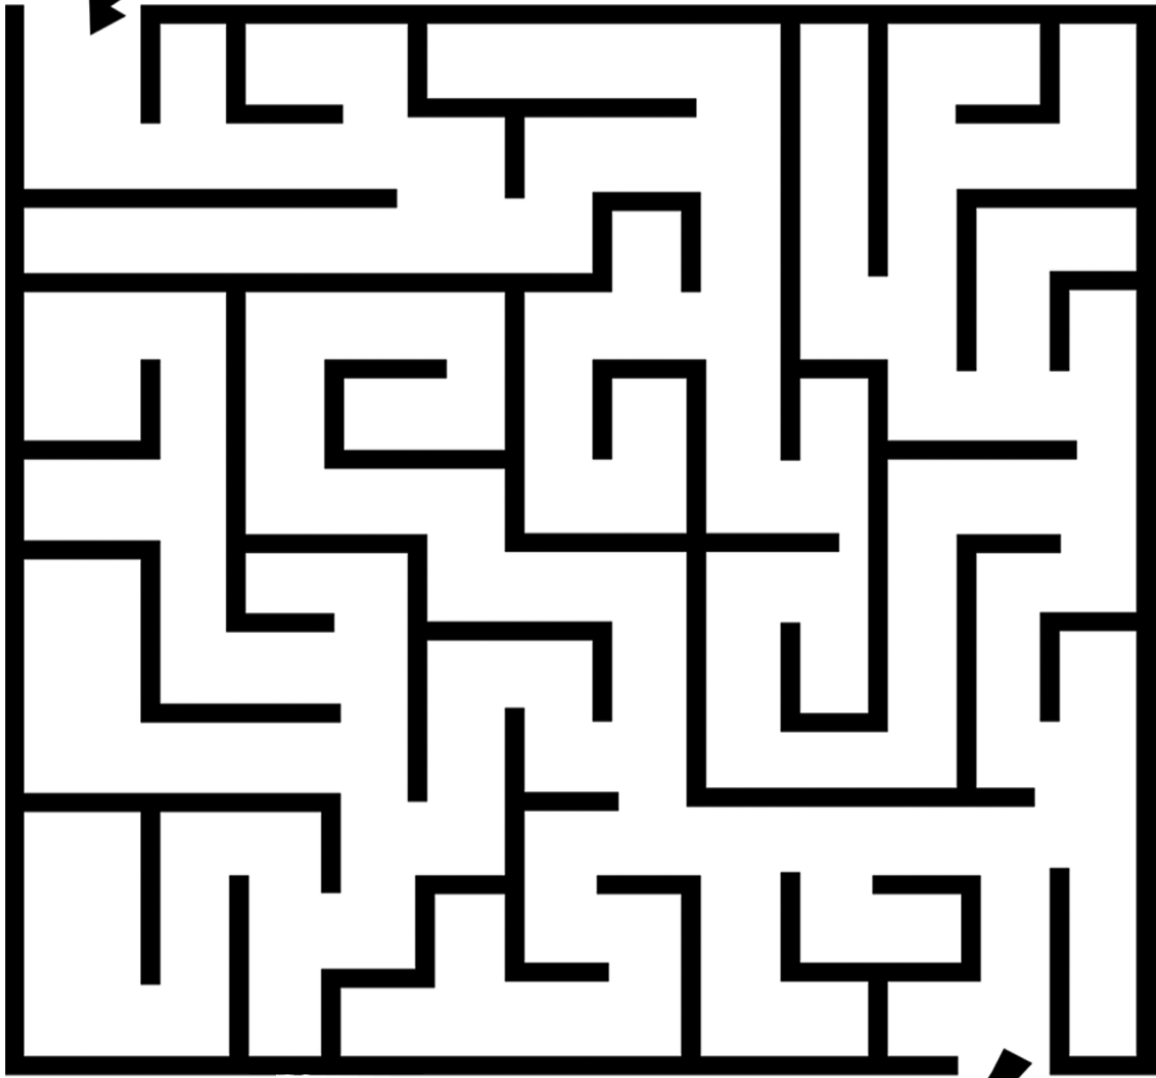

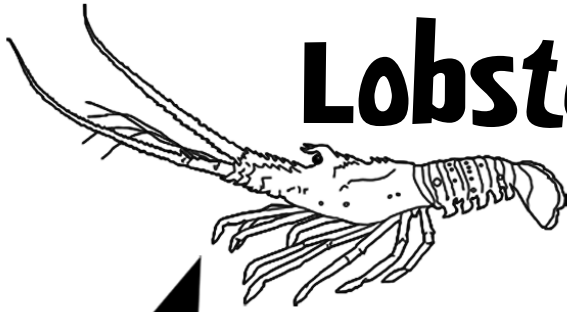

Spiny Lobster

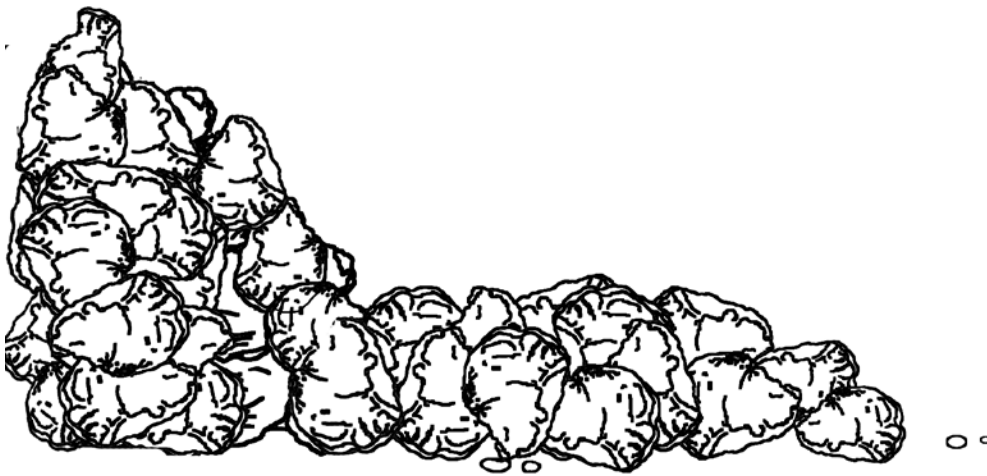

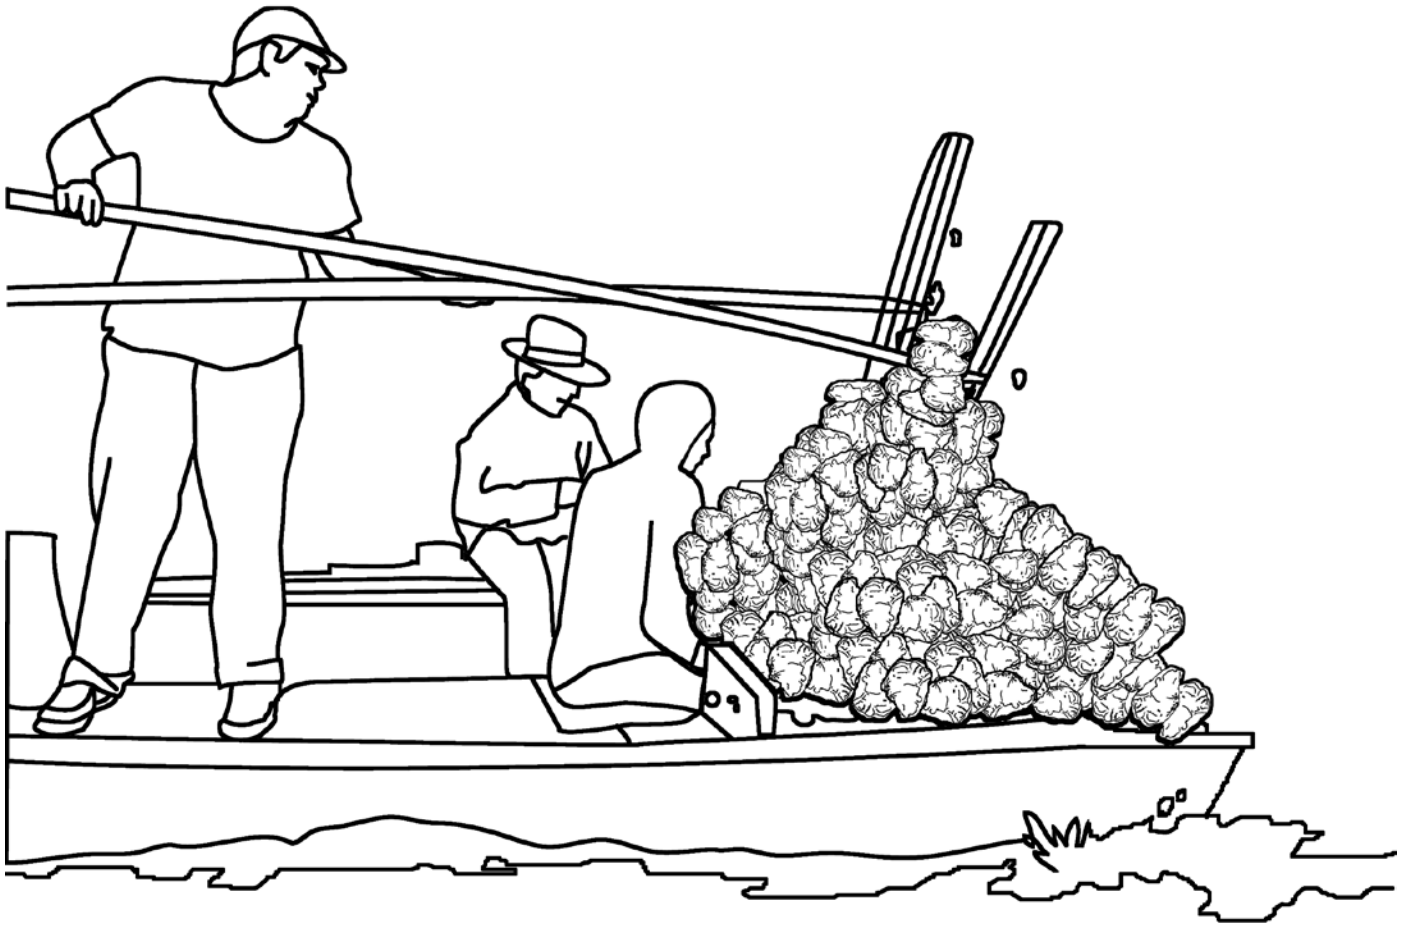

The Spiny Lobster has many spines on the body, two horns, a pair of long antennae and five pairs of walking legs.

Lobster Maze

Oyster Boat

Oysters are harvested from small boats by fishermen using large long handled tongs to scoop clumps of oysters from the bottom.

Message in a Bottle

There's a message in the bottle but the last word in the message has washed away. Guess each word in the list of clues. The letters in the darkened boxes will give you the missing word in the message.

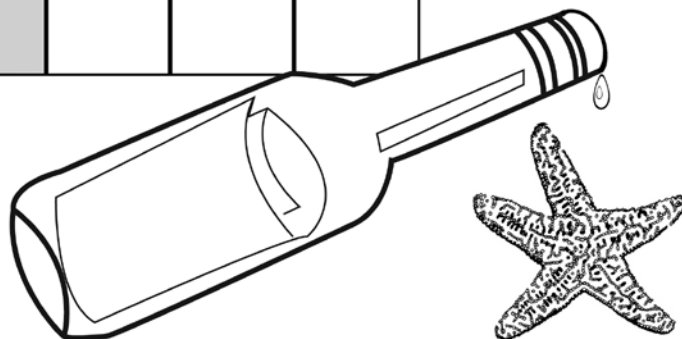

clues:

1. glad
2. simple
3. everyone
4. correct
5. city

1				
2				
3				
4				
5				

answers:

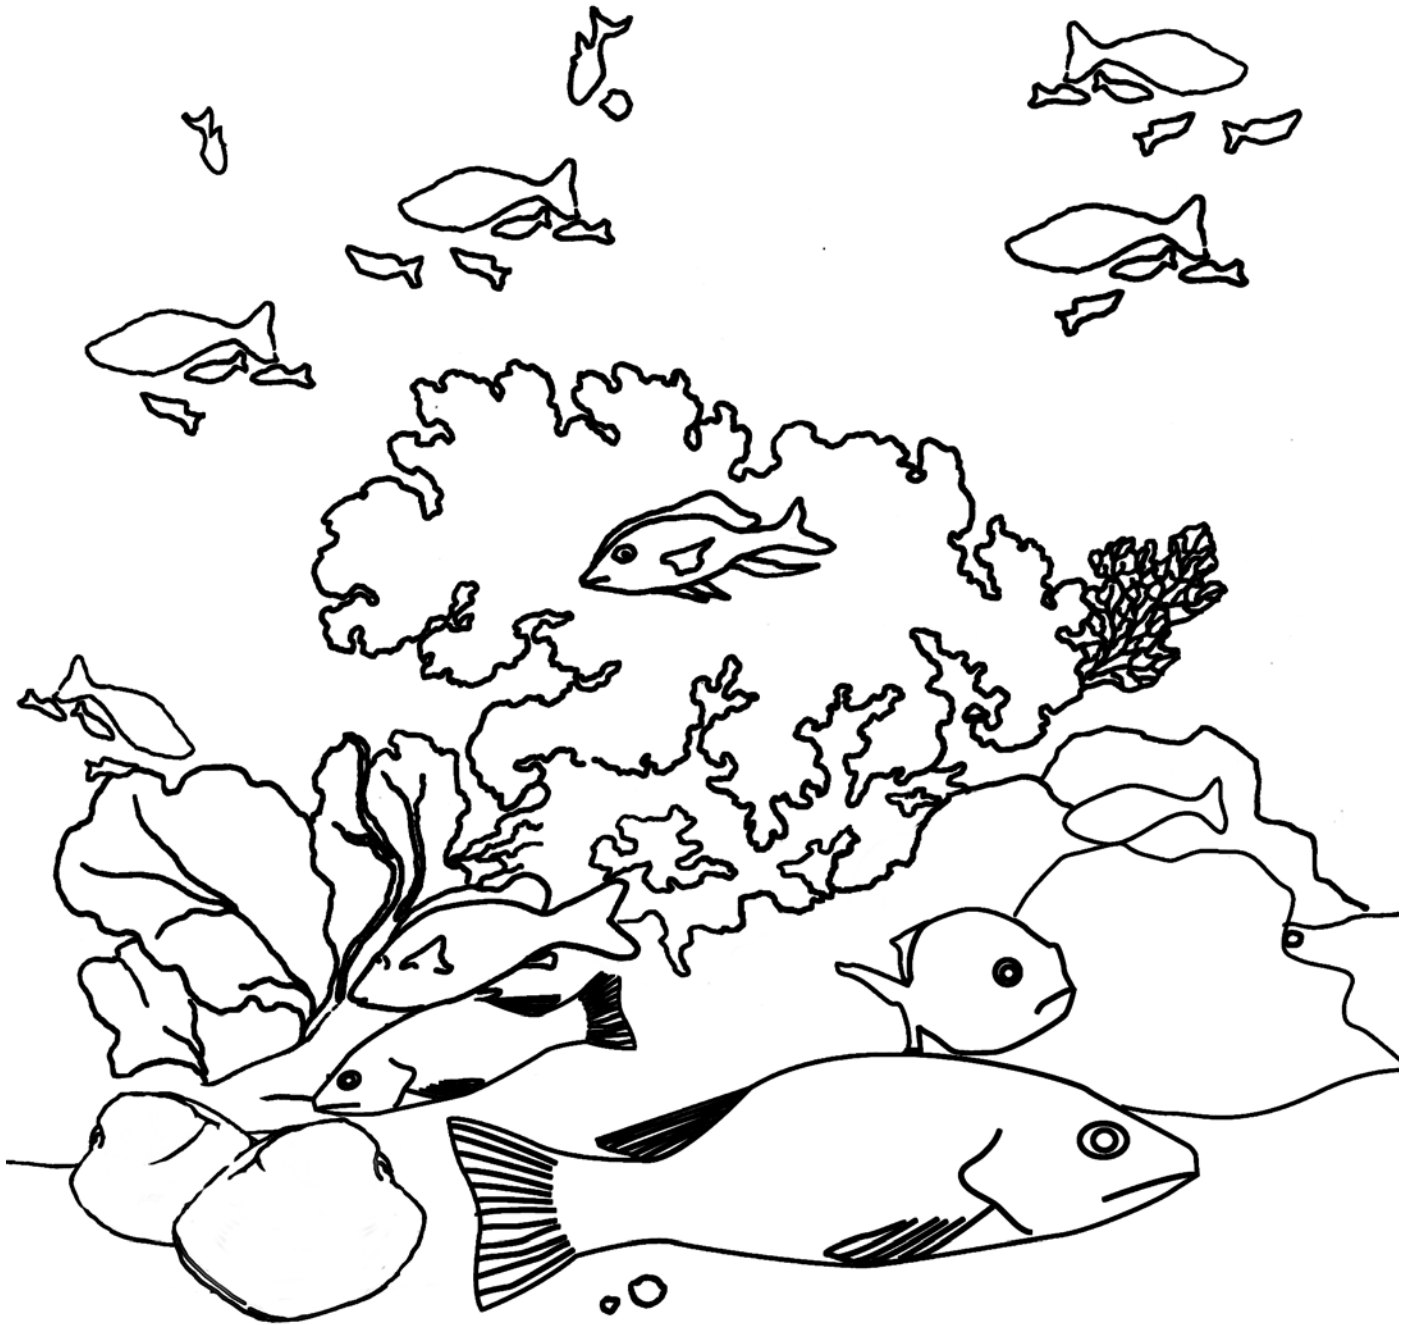

1. happy 2. easy 3. all 4. right 5. town

Aquaculture or Aqua farming

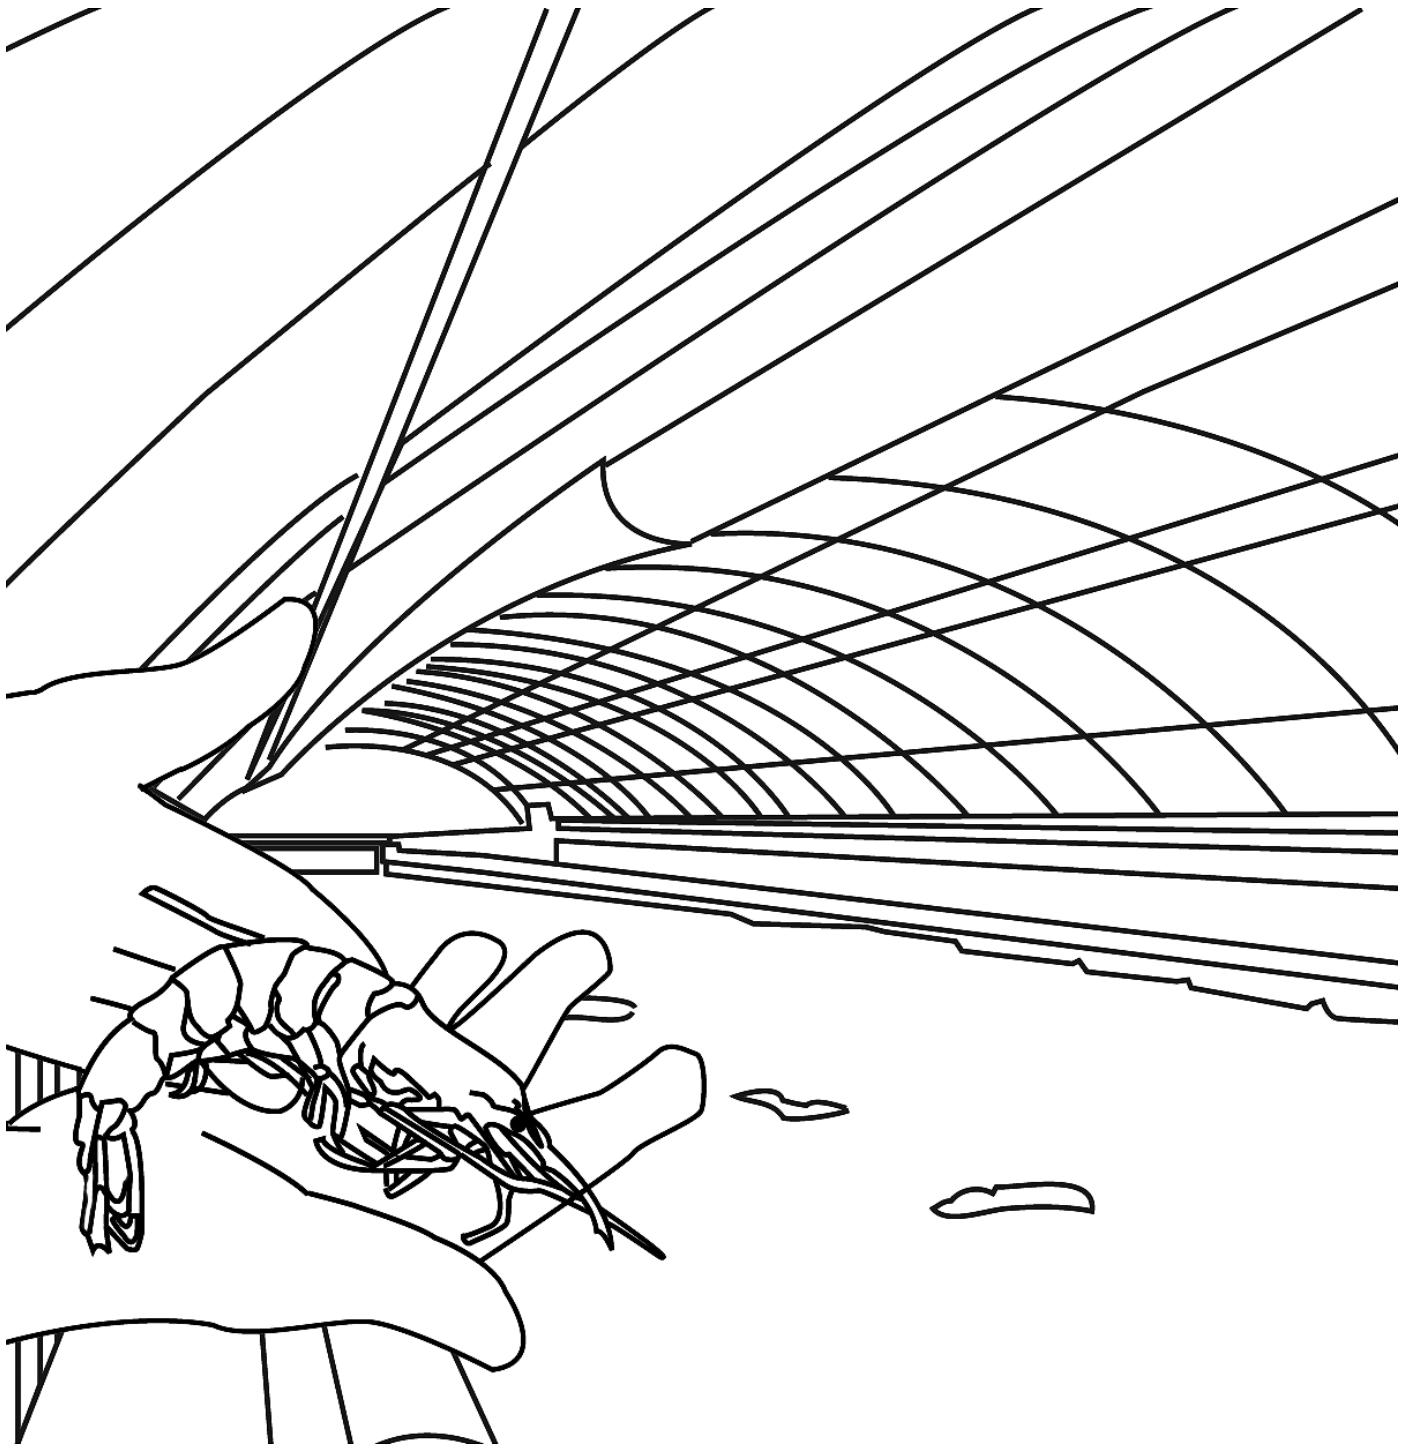

Aquaculture is the growing of plants, marine or freshwater species in water.

Farm-Raised Clams

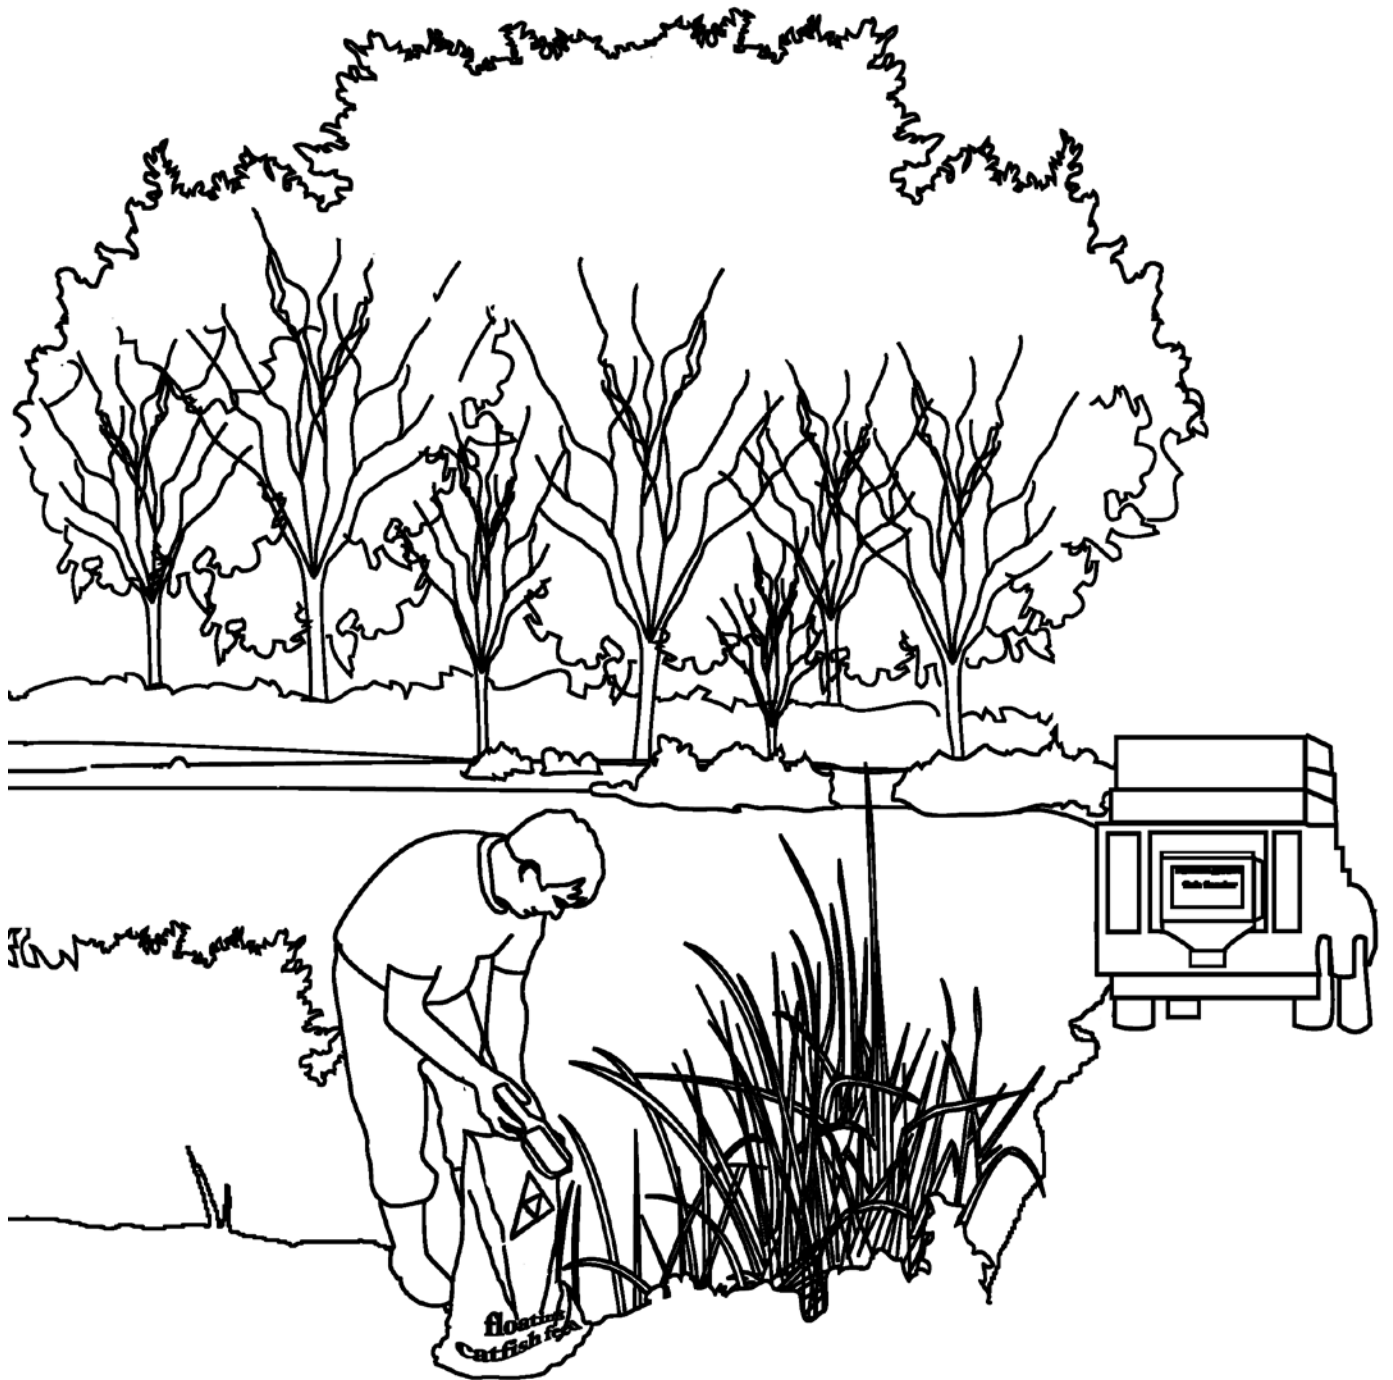

Clams are placed in protective nylon mesh bags to grow in the ocean.

Farm-Raised Shrimp

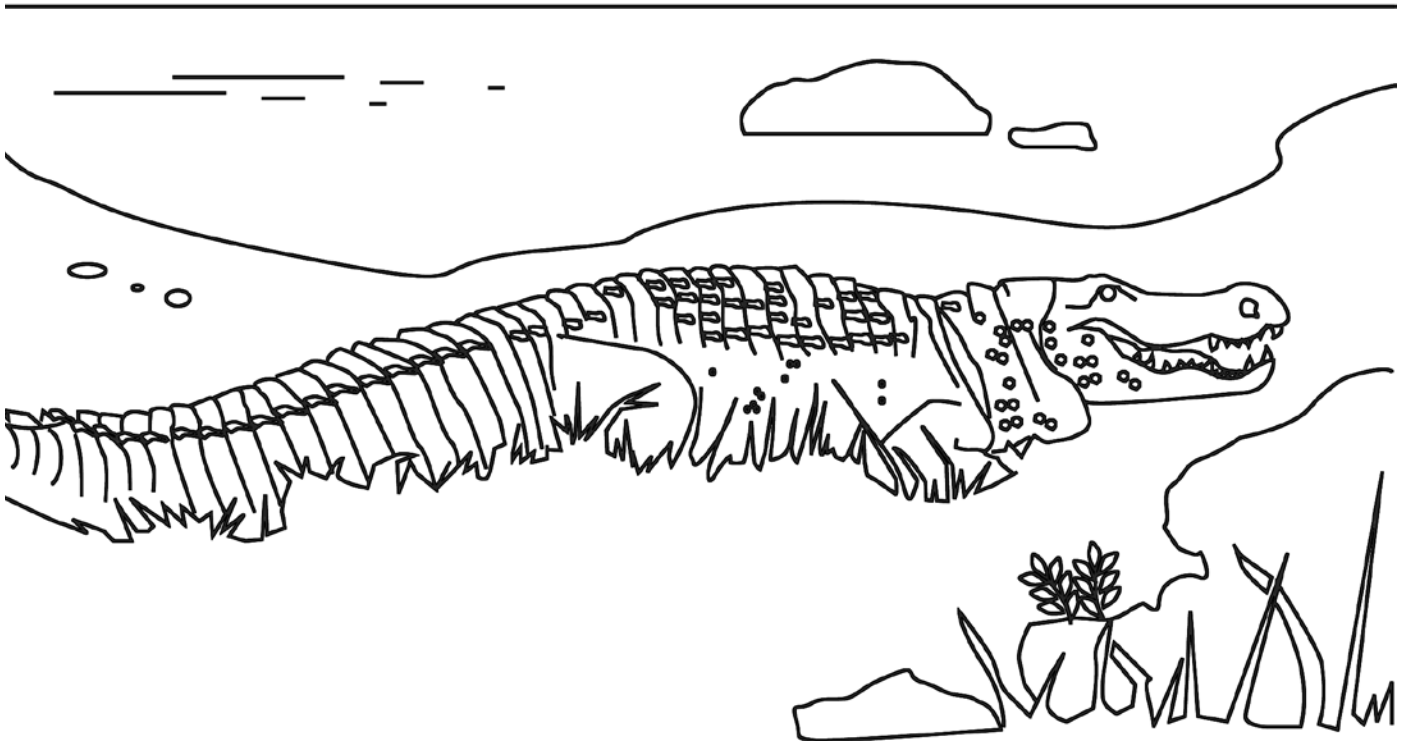

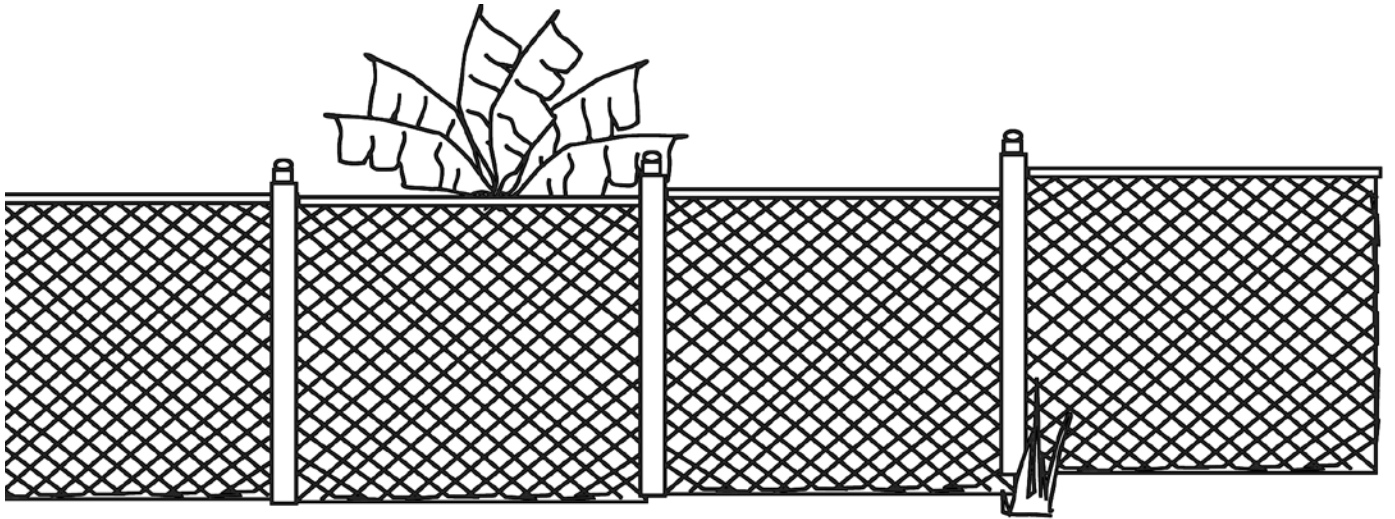

Florida farm-raised Shrimp are naturally grown without chemicals.

Farm-Raised Catfish

Farm-raised Catfish are raised in ponds filled with pure, fresh, water and fed a high-protein diet.

Farm-Raised Alligator

Farm-raised Alligators are regulated by wildlife management programs. Alligators are farm-raised for their meat and skins.
